 **naesp**™ National Association of  
Elementary School  
**Principals**

The American Student Council Association (ASCA), founded in 1987, is a national program of NAESP that recognizes and supports student councils across the nation for making a difference in their schools and communities.

The National Association of Elementary School Principals (NAESP) strongly endorses student leadership through Student Council. We Believe in Building Community Through Student Council—among students, teachers, administrators, parents and local community members.

### Why Join Student Council?

Student Council helps to teach skills outside of the academic curriculum such as leadership, civic responsibility, and organization and planning.

Student Council members can be positive role models for all students in the school.

All students in the school benefit from school spirit events, fundraisers, and community engagement.

Student Council helps share students' ideas, interests, and concerns with teacher, principals, and district administration.

### The American Student Council Association is intended for Student Councils in grades 4-8.

Your membership includes:

- ★ One year of online access to the website which includes guides for starting a council, student handouts, election information, sample documents, a project database, awards, and more.
- ★ Up to date information for councils to use in their schools
- ★ Discounts in the student council online store
- ★ The opportunity to apply to be a council of excellence
