## Perform a School Equity Audit

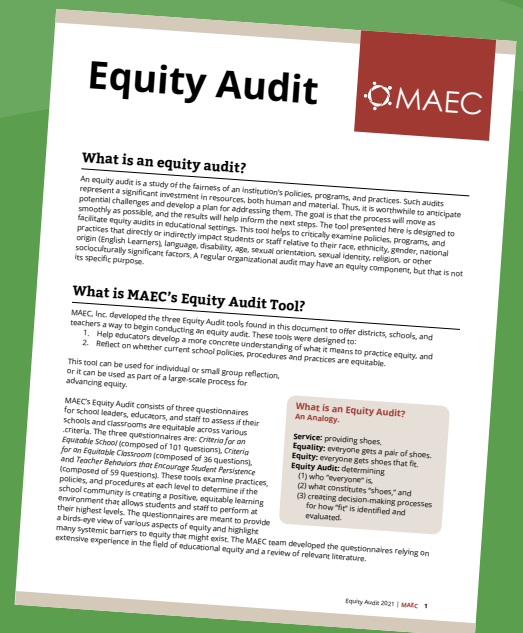

**D**o you want to perform an equity audit of your school but don't know how to get started? NAESP is proud to share the release of an updated version of the Mid-Atlantic Equity Consortium (MAEC) Equity Audit. The audit tool was revised in 2021 based on research and feedback from practitioners, including members of NAESP's Task Force on Race and Equity. It also reflects the new realities faced by schools due to COVID-19.

MAEC's Equity Audit consists of three component tools designed as questionnaires for school leaders, educators, and staff to assess whether or not their schools and classrooms are equitable across various criteria. The three questionnaires are:

- Criteria for an Equitable School;
- Criteria for an Equitable Classroom; and
- Teacher Behaviors That Encourage Student Persistence.

The audit is intended to help school staff develop a more concrete understanding of what it means to practice equity, and reflect on whether current school policies, procedures, and practices at each level are equitable.
