

Dear NAESP Member,

As school leaders, we carry the responsibility of creating connections, fostering engagement, and providing support for our school communities. My experiences in PA Principals and NAESP have fostered my leadership development and afforded me the opportunity to build relationships and create meaningful change. I am running for NAESP Vice President to give back to the organization that has meant so much to my growth and to support other school leaders in the same way.

My commitment is grounded in three core principles that will serve as the basis for my goals as Vice President: leading with authenticity, intentionality, and purpose.

Leading with Authenticity

I believe all productive progress is made through authentic, trusting relationships. As Vice President, I am committed to genuinely listening to your stories and questions, responding thoughtfully, and using this context in my leadership. While NAESP has built a strong foundation in professional development, networking, and advocacy, we must remain flexible and adapt to the ever-changing demands of school leadership.

Leading with Intentionality

My experiences at state and national levels have shown me the power of motivated leaders working together. It is critical that members feel connected to NAESP. Making intentional decisions about growing and expanding programs in conjunction with member feedback will be a goal of my term.

Leading with Purpose

Our purpose is to advocate for students and the educators who serve them. A clear platform with a shared vision is essential to enact change. Advocacy must remain integral to NAESP's work, and I will continue to elevate my voice while representing our organization and its members to the best of my ability.

I respectfully request your consideration and would be honored to have your vote.

Sincerely,

Jessica Quinter, Ed.D.
Principal, Park Forest Elementary
State College, PA
